

Thayer United Methodist Church

Construction is progressing on the new 4,360 sq. ft. Thayer United Methodist Church. Wes Corgan is the project architect. Local contractors involved include Snell Heating and Air Conditioning, Bob Flentje Plumbing, Lewis Electric, Farris Construction, Evans Masonry, with building materials coming from Garretson Lumber. The structure will feature a 13-foot tall cathedral ceiling and measures 40'x106'. Numerous volunteers are assisting with the work. The Church has so far reached \$75,000 of its \$200,000 construction goal.
